Milestone D7-Rev0 Update

sharbata opened on Feb 12 · edited by sharbata Edits Member

Date and Time
February 12 2025 2PM - 3:15PM
Meeting Link: https://teams.microsoft.com/meet/24189086648121?p=ZFLli6SjESWBpQpUIw

Meeting overview (see meeting recap link):

- Meeting began at 2:12PM (timestamp: 5mins 30 sec)
- We demoed Rev0 updates and Crazy 1-0s Dozenal game to Professor Rapoport - also discussed UI and game features and issues throughout (see Ammar Meeting Notes comment)
- Round 1 of Dozenal finished, new round began (timestamp 39 minutes)
- Discussed changes to game mechanics to resolve in game bugs (like 10 card not behaving as expected) and how arithmetic operations mini game should work
- Professor meeting ended at 3:15PM (timestamp 1h 11 mins 30 sec) and
- Team meeting started, and we discussed and finalized features to be changed (see Ammar Meeting Notes below)

Attendance
** Not mandatory

- [ ] Ruida Chen
- [ ] Jiaming Li
- [ ] Ammar Sharbat
- [ ] Alvin Qian

Agenda

- Demo our Rev0 front end and backend to professor again, get feedback on UI
- Progress update on finished additions to Rev0 since last week

Sub-issues 2 of 2

- Team Meeting - Right After Supervisor Meeting - 12.02.2026 #264
- N/A* Didn't happen* Team Meeting - 26.02.2026 - finalizing Rev0 updates #265

Create sub-issue

Alvin787 on Feb 12 Member

update beginning deck amount

fix point display bugged character

change arithmetic popup so both players do it and who does faster

goal 50 -> 100

remove pass button

fix score number base

10 didn't trigger suit change
10 should be played anytime

pop up after single game win to see who won and points won

make popup harder -> more options (5) or typed answer

sharbata on Feb 12 · edited by sharbata Edits Member Author

Ammar Meeting Notes:

Changes to be made to Rev0 (this includes all of Alvin's notes above):

- starting deck should be 7 cards, not 5 cards
- fix point display bugged character
- 10 card should be the wild card, NOT Dek (upside down 2) card
- How will we implement arithmetic operations: any face card triggers a random arithmetic orperation (add, sub, mult, div). In decimal, the K card will trigger player to select arithmetic op, in Dezenal, the C card will trigger player to select op
- arithmetic operation answers should be typed, not selected from 3 or 5 options
- change arithmetic popup so both players do it and who does faster - arithmetic operation should show for BOTH players, not just one (whoever answers first gets the points)
- goal 50 -> 100
- remove pass button - Pass button should be removed, game automatically calculated if a move can be made in a player's hand
- Error: Score is displayed in Dozenal, but score is counted in Decimal
- What happens when Draw pile is depleted (cards run out)? Please check in code. What should happen is all cards from the discard pile (except for topmost card) are reshuffled, and added to the draw pile.
- pop up / end screen after single game win to see who won and points won
- Can we easily create a Decimal Game? Ruida: Yes, the Decimal Game is already implemented. Next Professor meeting, we will demo the Decimal Game.
- In Dozenal Game, change the range of Arithmetic Operation to 100 for addition, subtraction, multiplication, division
- In Decimal Game, change the range of arithmetic operations to 100 for addition and subtraction, and 144 (12 x 12) for multiplication and division

Teammates will select changes above, create new issues for them and delete whichever changes they implement from above list.
